

Industry Focus

Solutions for the General Maintenance of Plant Equipment

Through extensive research of plant operations and of the causes of equipment failures, Belzona has developed a comprehensive range of products to help you with the general maintenance of your plant equipment.

Belzona can provide high performance solutions to such maintenance issues by increasing equipment life expectancy, minimising downtime, reducing expensive replacement costs and eliminating the dangers of repairs involving hot work. At the same time, Belzona solutions optimise the efficiency and reliability of equipment such as:

- **Shafts and bearings**
- **Pumps and valves**
- **Casings**
- **Conveyor systems**
- **Rubber components**
- **Tanks and piping systems**

Belzona® provides the solution to your repair and maintenance needs.

BELZONA[®]
Repair • Protect • Improve

Additional Application Areas Include:

- Rams
- Worn keyways
- Scored hydraulic rams
- Loose spline housings
- Loose bearing housings
- Pump and valve repair, protection and efficiency enhancement
- Heat exchangers and process equipment
- Stripped threads
- Holed and cracked casings and blocks
- Conveyor belts and fasteners
- Damaged rubber components
- Leaking tanks and pipes

Service

Through a global distribution network covering 120 countries, Belzona® can provide a full 24 hour on-site service with guidance and technical advice on the application of Belzona® products, available through the local Belzona® Consultant.

Experience

Since 1952 Belzona® has provided global expertise in the development and manufacture of innovative repair and protection solutions. Across a range of industries Belzona's track record has gained the confidence of countless engineers, contractors and maintenance personnel throughout the world.

Technology

Belzona® products are engineered to withstand the most aggressive environments such as erosion, corrosion, abrasion, chemical attack and mechanical damage, extending equipment life and improving efficiency.

Reliability

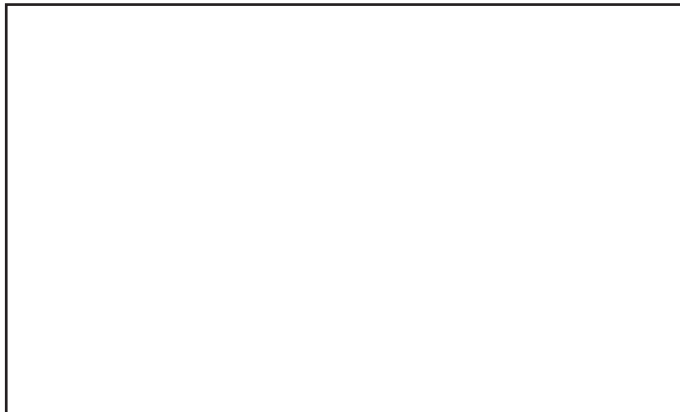

Industry can count on Belzona® to provide a prompt response, whether it is an emergency repair or simply a routine maintenance issue.

People

From the chemists and engineers in the Belzona® centres, to the network of local Technical Consultants, each person is part of the Belzona® team, knowledgeable and trained in solving the problems of your specific industry.
